Use the HENDUN admin center to upload the latest official manual, certificates, and revised product assets.

## Reference Specs

Trigger Type: Magnetic open / close sensor

Install Style: Adhesive mounting on frame and panel

Control: Handheld remote included

Best For: Windows, patio doors, and child safety awareness

## Common Questions

Q: Can 03R be used on sliding doors?

A: Yes. The magnetic sensor format is a good fit for patio sliders, balcony doors, and other narrow entry points.

Q: Does 03R need Wi-Fi or a mobile app?

A: No. The system works as a standalone local alert with no cloud setup or subscriptions required.

Q: Can I mount it without drilling?

A: Yes. The standard installation is adhesive-based, which makes it practical for homes, rentals, and quick retrofits.
