Common Questions

Q: Is PFA meant for loud safety alarms or welcome chimes?

A: PFA is best positioned as a local entry chime for customer arrivals, reception awareness, and daily light-duty notification.

Q: Can PFA work in a home office or studio?

A: Yes. It is a practical fit for spaces that want to know immediately when someone enters without needing a full alarm.

Q: Does PFA need an internet connection?

A: No. It runs as a direct local device with no dependence on apps or cloud services.
